Out of passion for gardening!

Compound liquid EC FERTILIZER – NPK fertilizer solution 6 : 3 : 6 with boron (B), copper (Cu), iron (Fe), manganese (Mn), molybdenum (Mo), zinc (Zn); Cu, Fe, Mn, Zn – EDTA chelates.

Macronutrients:

- nitrogen (N) total 6%
(including nitrate – 1,2%, amide – 4,8%),
- phosphorus pentoxide (P_2O_5) soluble in water – 3%,
- potassium oxide (K_2O) soluble in water – 6%

Micronutrients soluble in water:

- boron – 0,01%,
- copper – 0,02%,
- iron – 0,04%,
- manganese – 0,02%,
- molybdenum – 0,002%,
- zinc – 0,01%

Fertilizer with low chloride content.

APPLICATION AND PROPERTIES

Fructus Planter is a liquid fertilizer intended for the fertilization of agricultural and horticultural crops cultivated in the ground, on inert, peat and cortico-peat substrates in the open as well as under cover. It contains a full set of macro- and micronutrients essential for the proper growth and development of plants. Fructus Planter is recommended for use in the cultivation of: cereals, oilseed rape, beet, potatoes, corn, legumes, vines, hops, tobacco, fruit trees and vegetables (tomato, cucumber, peppers, cauliflower, cabbage, broccoli, lettuce, parsley, carrots, leeks, celery, rhubarb, fennel, kohlrabi, radish).

RULES OF USE AND DOSAGE

This fertilizer can be applied as a solution with a concentration of 0.75% to 2.5%: for soil or foliar application. To obtain a solution with a concentration of 2.5%, dilute 2.5 liters of fertilizer in 100 liters of spray liquid. For such a concentration one package is sufficient to obtain about 200 liters of solution. In order to obtain a solution with a concentration of 0.75% dilute 0.75 liters of fertilizer in 100 liters of spray liquid. With such a concentration one package is sufficient to obtain about 650 liters of solution. The concentration of spray fertilizer liquid and doses should be adjusted to the nutritional needs of the plant, its variety, health and development phase. It is recommended not to exceed 5 liters of fertilizer per 1 ha of crops and 2.5% concentration of spray liquid.
